

IMI 2012

Summary

The star - disk - planets system

A complex, evolving and strongly interacting system

(+ WINDS – disk & stellar)

GAS & DUST

SPACE & TIME

MOLECULES (e.g. H₂O) & GRAINS (minerals)

INSTRUMENTS & OBSERVATIONS & MODELS

ITA - MPIA - IPAG

- A convergence of interests
- A broad range of complementary expertise
- A number of on-going collaborations
- ✓ Encourage PhD student visits (e.g. 2nd year) between institutes to share expertise and know-how
- ✓ Continue regular IMI meetings; next one in 2014 ?

*Thanks to the organizers (esp. Gael Chauvin, Marie-Helene Sztefek, Richard Mourey)
Thanks to our guests and to all speakers for a interesting and hopefully fruitful meeting*
